

MOBILE WALLS ON CASTERS

WITH PARETI'S MOBILE WALLS ON CASTERS

Get rolling with your exhibit, retail display, trade show display faster and easier than ever with mobile walls on casters.

Pareti successfully married form and function when we developed our innovative rolling walls.

Our walls on wheels are a fabulous fit for

- Smaller shops and galleries
- Salons
- Offices
- Studio Apartments
- Museums
- Furniture Stores

Our individual free standing mobile walls on casters are easy to move, easy to modify, and designed for long-term use. We think you'll enjoy them from the moment you get them out of the box!

As with our standard mobile walls, hanging items is simple. No wires, no construction timelines, no construction know-how. Use a nail and hammer or other methods that work with regular drywall.

SOLID CONSTRUCTION

The same rugged surface and plywood core of our standard wall design is incorporated into these rolling display walls. That means you can nail, screw and hang items on the walls.

Wall sections are firmly anchored to a detachable 63lb rolling base. This provides ample weight to make the wall tip-resistant with normal rolling movement. While no freestanding portable wall is entirely tip-proof since they're not screwed into the floor and ceiling, our rolling walls do not tip easily.

Assembly is simple, and requires you attach the wall panel to the base using 2 lag bolts and t-nuts, provided with the system.

EASY ASSEMBLY

Our Rolling Walls offer simple assembly. Once assembled, one person can easily roll the walls into position.

Each wall includes 4 locking, non-skid casters (black).

Heights can be customized for 8 feet and under, so your rolling walls can go through doorways or elevators. Just let us know your maximum height.

Using your phone, take a photo of the QR code above to watch our installation video, or go to <https://youtu.be/pnodRXzENGY>

Height is 8', 7³/₄"

**Need something shorter?
We can customize heights too!**

103¹/₄" tall

**Wall is
100 lbs**

**White primer
base coat
included.**

**Base is
60 lbs**

48¹/₂" wide

HEAVY DUTY BLANK CANVAS

Our walls can handle nails, screws, French cleats, hanger hooks, lightweight shelving and more.

Simply patch smaller holes with sparkling (our preference here), touch up paint, and you're ready to go again.

PROFILE CHOICES

Choose from 2-foot wide or 4-foot wide walls.

In the mobile base, the standard overall height is 102".

Mobile Base measures 24" deep x 48" wide. (or 24" wide with 2-foot wide walls)

Custom heights under 102" available.

\$850 EACH
PLUS CRATING & FREIGHT
